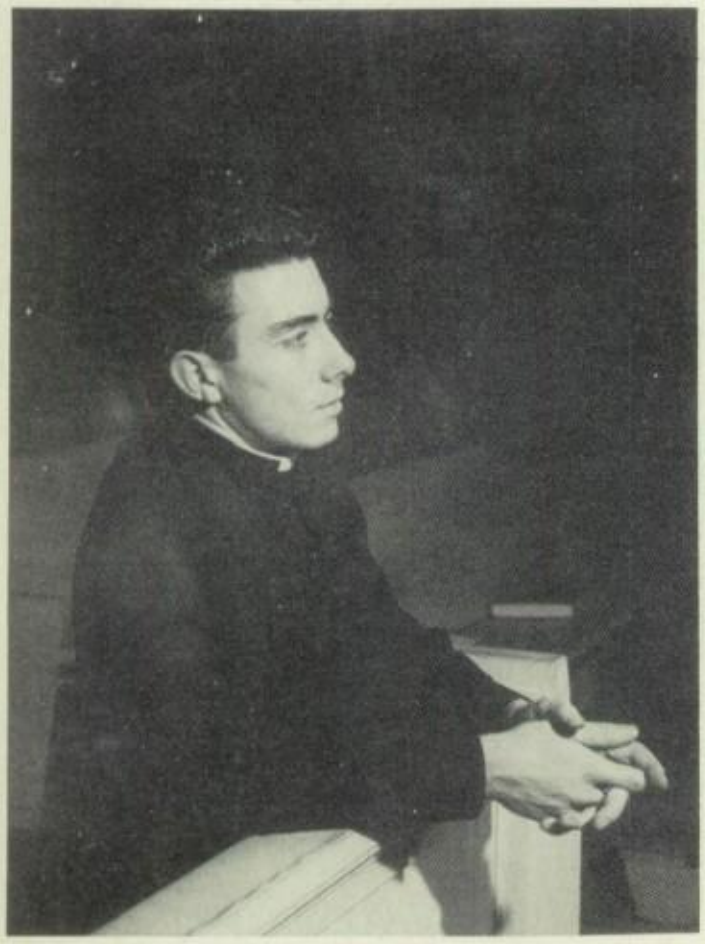
BROTHER RICE HIGH SCHOOL

Conducted by the Christian Bro. of Ireland

1963 CRUSADER

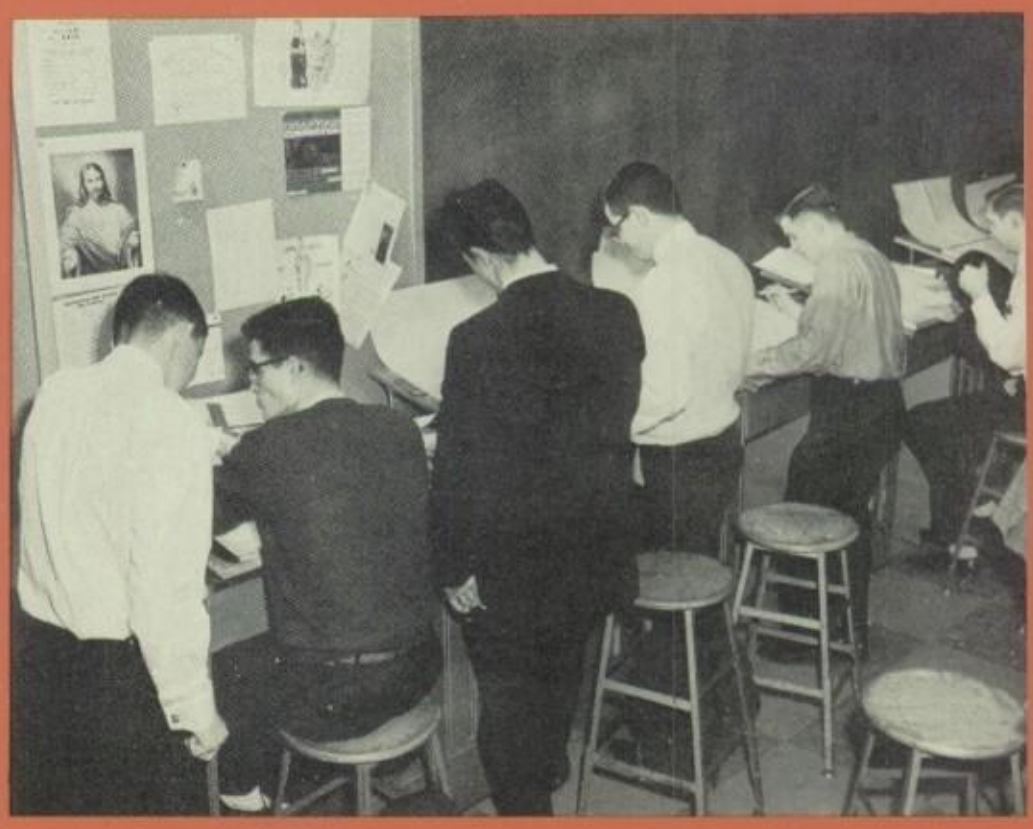
dedication - 6

The education of young children through a teaching order of brothers was his object; the salvation of their souls his purpose. Due to his zealous love of God, he was able to found the Christian Brothers of Ireland. Withstanding persecution from many Irish Protestants, he tried to accomplish his task and fulfill his purpose. Because his efforts were realized, children all over the world learn their studies from the men who followed his example. His life was modeled on the virtues of perfection. For these reasons, we the Fourth Graduating Class, are honred to dedicate the 1963 Crusader to Brother Edmund Ignatius Rice, to whom we are greatly indebted.



faculty - 10

A teacher is a many faceted individual. To be a complete teacher, he must be a disciplinarian, a counselor, an instructor, and a paragon. He must have such qualities as insight, patience, intelligence, and kindness. But since these attributed are in the abstract, they can not be caught in the camera's eye, and thus we cannot hope to present here a true representation of a teacher. We will attempt, however, to come as close to this goal as possible in these few pages. In order to do this, we will present, in addition to the individual photos, a sequence of pictures illustrating the activities of the teacher in his daily life.

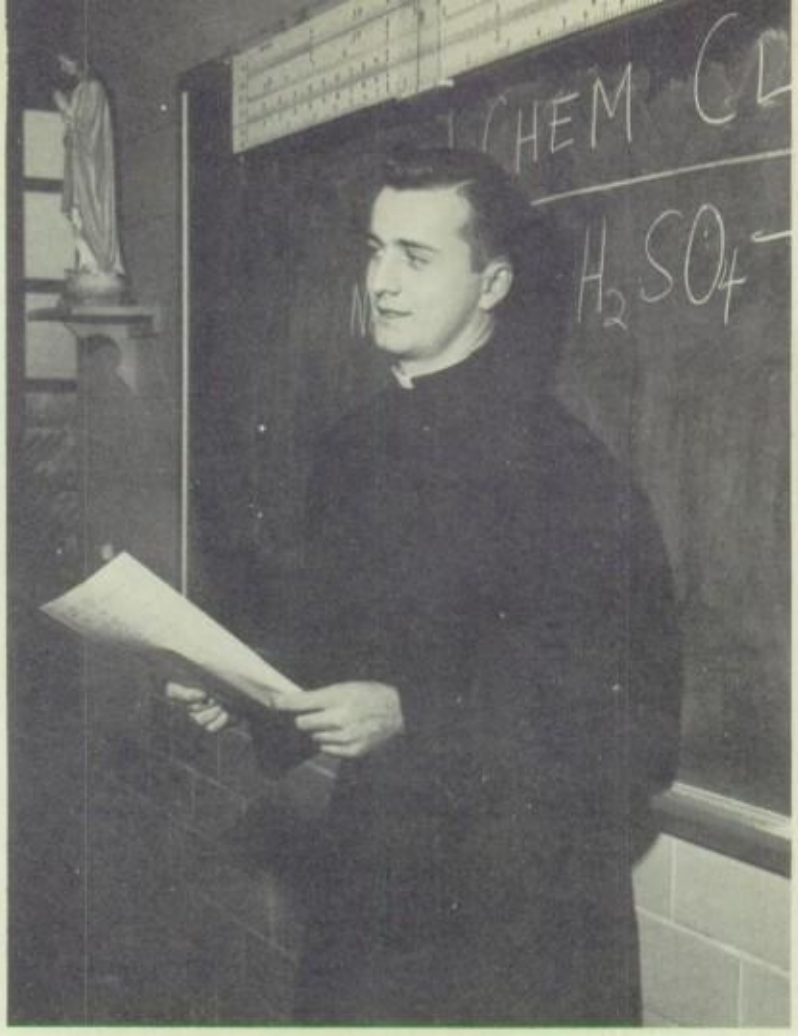


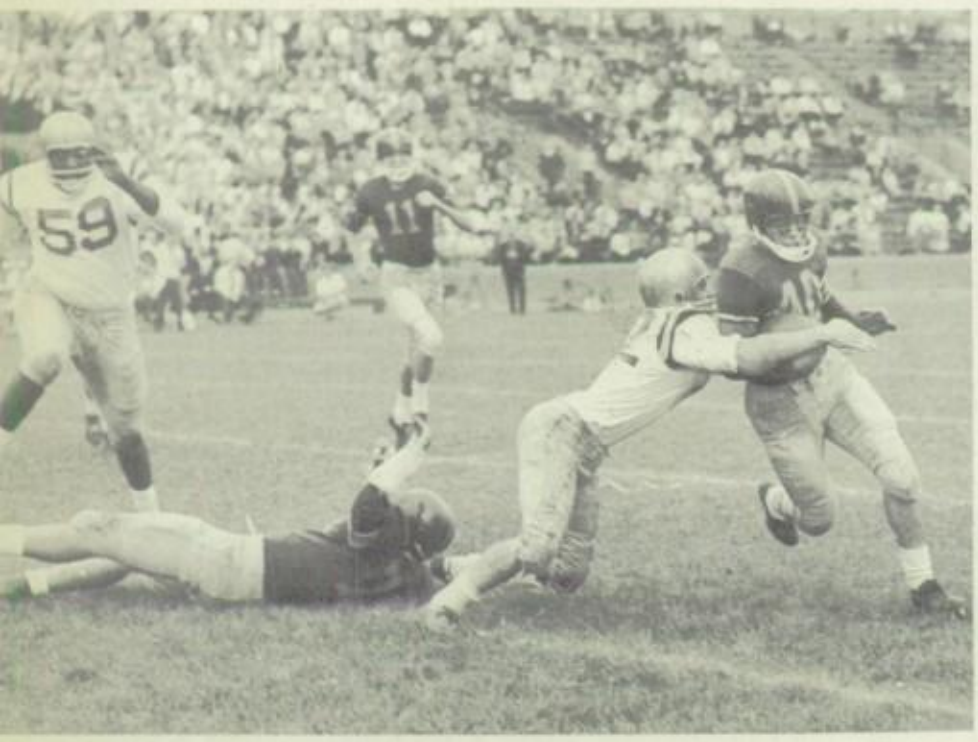
classes - 22

The underclass section of the 1963 Crusader is devoted to those young men who, in the future will bear the standards of Brother Rice High School into the world. They are in training now. They are being conditioned physically, socially, and spiritually in preparation for that day when they must leave behind their alma mater and, in many instances, their homes and families, and venture alone into this vast country to find their footing and station in life. These four years at Brother Rice are of great importance to these young men. We of the Crusader staff sincerely hope that they will find these years happy and rewarding and that they will leave Brother Rice ably prepared to face what may lie ahead.

activities-60

The knowledge being presented in the classroom is incomplete without its complement, activities. By engaging in an activity, the student converts theoretical knowledge into practical usage. He profits by practical experience in coordination, cooperation, and unification of purpose which can become a material aid when he enters the industrial world to compete for a living. The Brother Rice Activity Program is geared to offer encouragement to all levels of creative abilities. Thus, every student has an opportunity to express himself.





sports-104

At Brother Rice sports play a large role in sustaining the school spirit. Most students enjoy following the teams representing the school, and the athletes obtain valuable experience in sportsmanship. Every phase of the school's athletic program from varsity football to intramural handball promotes physical fitness, so sorely needed by any country. For those who say sports hinder the intellectual life of a country, let us point to the home of the Olympic Games, ancient Greece, the most learned nation in history.

seniors-140

The seniors' high school hardships have finally ended. Four years, full of memories, both pleasant and unpleasant, have been spent in the process of making men from freshmen. Under the watchful eyes of their teachers, these men have matured spiritually, mentally, physically, and socially. Along with a formal photo of each, there appears in this section a sketchy history of their accomplishments. In the future, we hope that they will look back at these pages with many fond memories.

BROTHER EDMUND IGNATIUS RICE

In the present age, it is not easy to realize the difficulties encountered by a Catholic during the time of the presecutions in Ireland. Edmund Rice has give us an example of Christian living. Born in the county of Kilkenny on the first of June in 1762, he was brought up in the troubled times of Ireland. Protestants were determined to stifle the Catholic faith by depriving the Irish people of their civil rights, thus keeping them in poverty and ignorance. However, he was one of the more fortunate youths who received an education. After Edmund had finished his education, his uncle, a prominent merchant of Waterford, asked him to join him. It was from his uncle that Edmund gained a remarkable business attitude, succeeding him later as owner of the flourishing concern. Edmund, a man of deep religious feelings, frequented the sacraments and devoted much of his time to spiritual reading, gaining a deep knowledge of his faith. Feeling that God had chosen him to teach the unfortunate boys of Waterford, Edmund Rice sought help through constant prayer. Finally, he was advised by the bishop of his diocese and received a commission to teach. Although he was unable to get any volunteers to help him instruct the unruly and ignorant boys of the area, his sacrifice and confidence soon had their reward. From the country of his birth came two young men. Within a year Edmund and his two disciples entered into their residence at Mount Sion, as it was called by the Bishop, and continued in their teaching. At the end of the year he felt the time had come for him and his companions to consecrate themselves to God. This marked the beginning of their teaching as an order. In 1920 the Holy See recognized them as a Religious order. Brother Rice continued his apostolic work for thirty-six years. On August 29, 1844, Brother Edmund Ignatius Rice gave up his spirit to God.

Brother Rice High School proudly dedicates the 1963 CRUSADER to the memory of this man of God.

ACTIVITIES

BAND

One of the best known activities at Brother Rice is its Band. Moderated by Bro. Joyce and directed by Mr. Henning, it has progressed a long way to putting the school "on the map." Known for its performance at our football games, the Band has also given us great entertainment thought its successful concerts. This year they have already made a huge success of the Christmas concert, which is a co-op with the Glee Club. Last year they were honored by being invited to Detroit to give a concert. Brother Rice was also enriched by a visit by a band from Detroit. The entire student body owes a debt of gratitude to the leaders of the Band and the Band members themselves for the great honors and prestige that they have brought to the school.

Glee Club members practice after the school day is over.

Brother Rice has achieved a reputation in its short history of being a school in which the student may develop himself fully. A group which deserves much of this credit for this is the Glee Club. In concerts both here and at other schools, the club shows why it is top-rated in the city. Acting as goodwill ambassadors from Brother Rice, the members please every audience before which they appear, including one at the Museum of Science and Industry. Much of the credit for the appearance of the club should go to the director, Mr. Garrels, and the moderator, Brother Morrison. Under the capable leadership of these two men, the Glee Club will continue to exhibit the high degree of excellence attained at Brother Rice.

Mr. Burdzinski looks over notes and music before a Prep Glee Club Song Festival.

The Prep Glee Club, in its second year at Brother Rice, is well-known for its high degree of excellence. Compose entirely of freshmen and sophomores, the group is under the able direction of Mr. Burdzinski and is moderated by Br. McIntyre. The Prep Glee Club has displayed its fine talents at the Spring and Fall Concerts and, in combination with the Senior Glee Club, has performed at McCormick Place. Their tireless efforts and ceaseless determination to attain perfection have always been climaxed by their fine performances. It is hoped that this activity, which has been illustriously established, will be continued in the years still to come.

Although the Alumnae Mothers Club is only three years old, it has done a great deal of work in its short existence The object of the organization is "to foster friendship among the Mothers whose sons have graduated from Brother Rice and to assist the Brothers financially in their work of training young men for the Apostolate of the classroom." The club has grown from a charter membership of thirty-three to over one hundred members. Under the able guidance of Brother Pilon and the capable leadership of Mrs. Masino, the president, the club is working to provide funds for a house of formation for the Midwest area. The mothers of all Brother Rice graduates along with all women interested in this work are eligible for membership in this noteworthy organization.

MOTHER'S CLUB

Hopeful father taking chance for prize.

Looking around the school, we can easily see the work and influence of the Brother Rice Mother's Club. They have provided the ceiling tile in the hallways, the foyer furniture, the lights over the stage, and the office IBM machine. They have also contributed to the swimming pool fund. Besides these activities, however, are the social and religious activities of the club. Their Evenings of Recollection, Mother-Son Communion Breakfast all have been great successes. These women have done a great deal for the school.

One of the backbones of Brother Rice is the Dad's Club. They have sponsored the raffle drive, the Globetrotters Basketball game, and the Las Vegas Night. These always profitable ventures have resulted in many of the fine improvements about the school. At present, the funds are being used to construct the swimming pool, which will cost around 200,000. To their credit in also the fine job they do ushering at the basketball and football games. Many of the students also benefit from this club, directly, the club pays the tuition of the son of a deceased member for his years at Rice. For these and numerous other reasons the club deserves our thanks.

GERMAN CLUB

Early in January of 1963, Mr. Baader gathered a handful of students for the purpose of teaching them basic German. The response to the class was a group of four sophomores. The German Class began its meetings on Fridays after school. Basic vocabularies and grammar rules of Germanwere taught by Mr. Baader. In March, it became officially a club, complete with elections and dues (one wanl, 16 pferrnigs per annum). The class meetings were for the purpose of instriction in the German language and culture.

"What's that formula for alcohol again?"

One of the old clubs at Rice, the Chemistry Club, has recently enjoyed a rebirth at this institution. Moderated by Brother Doherty, the club seeks to give its members more supplementry education in the field of chemistry. The students in the club meet several days a week to work on projects which are suited to each person's interests. One of these projects, the club's report on the tars and nicotine found in cigarettes has already been given much favorable publicity throughout the school. May this club grow and prosper in its work here at Brother Rice.

ASTRONOMY CLUB

One of the oldest clubs in the school, the Brother Rice Astronomy Club has again concluded a successful year of investigation into the universe around us. Breaking up into smaller groups, the members have studied the workings of the Solar System, the "Local Group", our Galaxy, and the universe as a whole.

Besides doing work of a purely studious type, a new project was inaugurated this year, the construction of a 10 inch f/8 Newtonian reflector which will eventually be used by the members for research of their own. The "guiding lights" behind this year's activities were Br. J. J. Kennedy, moderator, and Norman Derby, president.

Since the new Amateur Radio-Electronics Club was initiated two years ago, there has always been a great deal of enthusiasm shown by its members. This year there were approximately fifteen members. They participated in such numerous activities as operating in a all-night radio contest, repairing broken radios, and erecting new antennas. The club radio station W9EJX is kept continuously on the air. This year also new equipment was added to give the station keeper frequency coverage. The club has been very informative and has given many hours of enjoyment to its members.

BIOLOGY CLUB

President Frank Haraf discusses future projects with the other officers of the Biology Club.

The Brother Rice Biology Club is one of the least heard of in the school. Its purpose is to study further the more uninteresting topics of biology. This club's membership is mainly composed of sophomores and juniors. Each members undertakes a project of his own choosing on which he works throughout the year. The members is expected to develop it through reading and experimentation. Many of the best biology exhibits which are entered into Science Fair are products of this system.

ADVANCED PHYSICS CLUB

The club was born in 1960 when Brother Crane decided to allow certain students interested in physics to do research in the field of atomic physics. The original research project was concerned with electron diffraction. Then, in 1961, a new project, the electron microscope, was introduced to widen the scope of investigation. The work continued at an increasing pace while the members experienced both success and failure. In September 1962, however, certain members of the two groups branched off to a third project, the cyclotron. Working hours after school, the persevering members have gained few results and frequent failures but also much experience and know-how.

The General Physics Club has now been in existence for four years at Brother Rice. Since it was initiated by Brother Crane, its present moderator, the club has attracted mostly senior students. The purpose of the club is to allow students to perform experiments and to investigate physical phenomena on a college level. The meetings usually include an experiment, an informative film, or a lecture. The results of the experiment(s) are usually discussed in following meetings. The officers of the club are: Scott Nainis, president; Tom McCarthy, vice-president; Dick Kennedy, secretary; and John O'Connor; recording secretary.

RETREAT

Mass: the most important of the retreat.

Father O'Rourke gives a big grin to underclassman during counseling period.

Perhaps the most important spiritual activities to take place at Brother Rice are the annual retreats. As their names implies, they are designed to allow the student to draw back from the world for a few days and to consider his spiritual development. This year we were fortunate enough to have Father O'Rourke, an Augustinian priest, give both of this year's retreats. Father's comments on today's world problems were both fitting and timely. His solutions to these problems were just as fitting. Affected by his numerous sermons, many of the students availed themselves of confession and communion which were available daily. As in other years the retreats were a great success with the students.

Father O'Rourke gives one of his many enlightening talks.

Spiritual reading is a fine opportunity offered during retreat.

Father O'Rourke performs his essential function--the Mass.

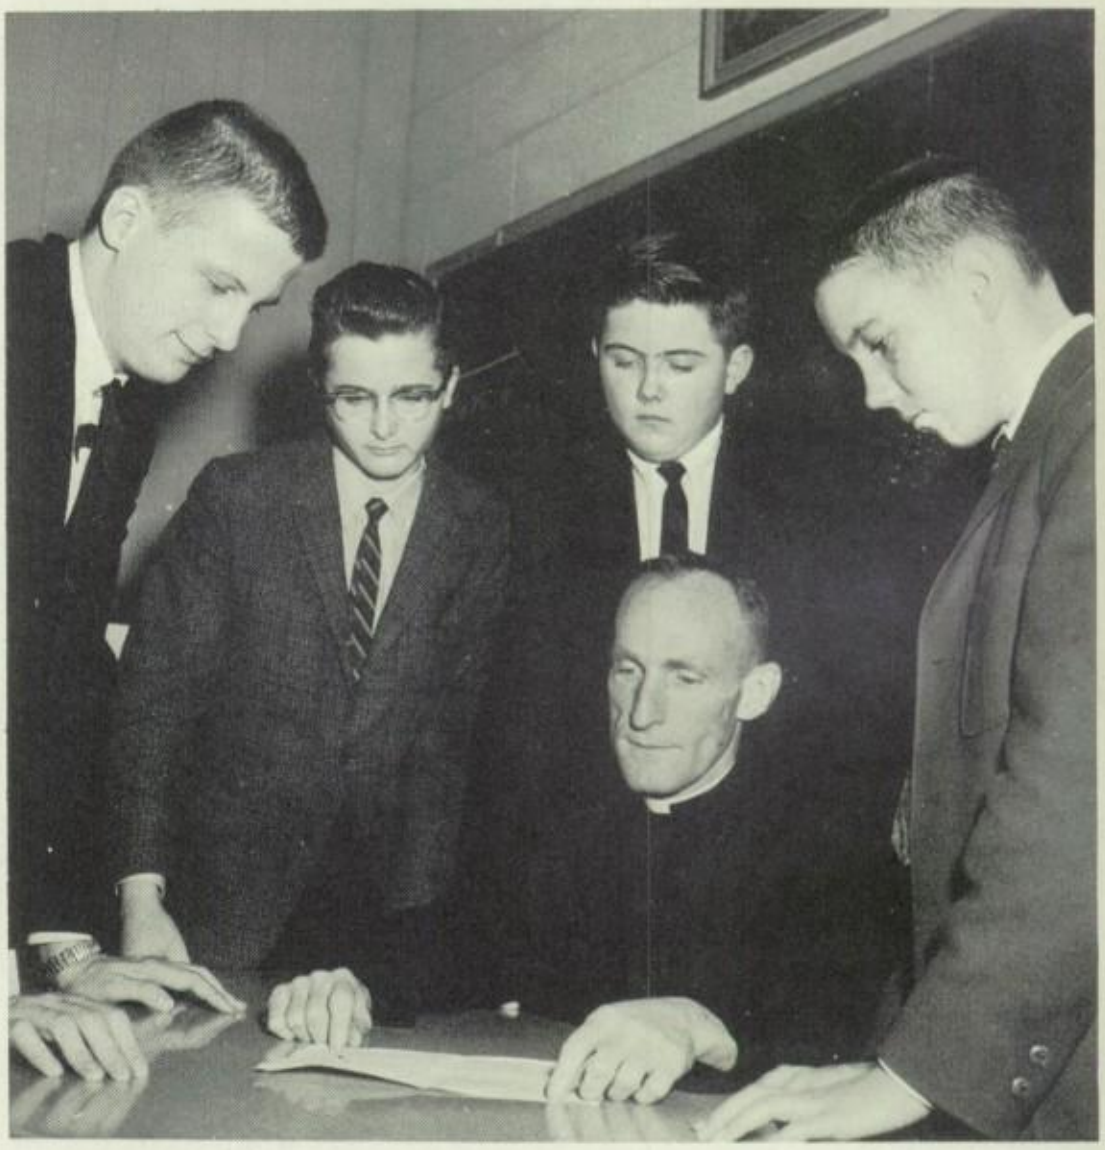
SODALITY

The Sodality of Our Lady is one of the most important organizations in the school. As the only student religious organization in the school, it tries to develop its members into stronger and more perfect Christians.

The Senior division, moderated by Brother Moore, indulges in direct apostolic work, such as teaching religion classes in the local parishes. Another notable work of this group is the food drive at Christmas, which is co-sponsored by the Student Council.

The Junior division, also moderated by Brother Moore, concentrates on the spiritual development and formation of these younger Sodalists in order to give them a firm foundation for their future work, the Sodality remains at Rice a powerful force in the spiritual growth of the school.



Brother Moore discusses the Sodality's future 1lans with a few members.

This year under the direction of Brother Donnelly a Pep Club was started to have organized cheering at our various games. The venture proved to be very successful. T. Coffey was chosen as the leader of the group of dedicated seniors and juniors. At our pep rallies the student body was introduced to this group of boys and immediately new cheers were introduced. At the football games the cheers were greatly improved over the previous years. Pep Club passes were given to interested students for special sears at basketball games. A great number of interested students applied and thus it was a huge success. We can truly say that the Pep Club was helpful in our successful season.

One of the important activities in our school is the Student Council. Their main duty is cooperating with the principal to bring action which is beneficial to the students and to the function of the school. As a result of last year's elections D. Ludden was selected as president, J. Fee - vice-president, M. Berry - secretary, P. Dunne - treasurer. With the guidance of Brother Curtin, these officers lead the activities at their meetings. In addition to viewing points brought up by the student representatives, the Student Council acts as ushers at the various events conducted in the school such as Debate Tournaments, Communion Breakfasts, and the Science Fair. Their work in the school is truly appreciated.

DANCES

This year the dances were directed by the illustrious Brother Fellows. President Dick Kennedy and Vice-President Bill Palluck ably confused Brother Fellows into a mad panic before each dance. It if weren't for the remarkable ability of the other members, Brian O'Connor, John Fahy, Ken Mrozek, Tim Coffey, Jim Arzbaecher, Pat Dunne, and Tom Kearney, none of the dances would have been a success. Four dances which the group managed to produce included the Homecoming and Semester Dances which were the most successful. These people should be congratulated for their efforts in achieving a newer quality of dances at Brother Rice.

FORENSICS

Ray Drakton and Terry Hallberg talk over plan of attack with Den Gaynor.

The Brother Rice Forensics Club is one of the oldest and most active clubs in the school today. Moderated by Mr. Lyons, this club has already participated in several debate and forensics tournaments and plans are being made for several more in the future. In addition to these, the club has already had practice debates with St. Rita, Mother McCauley, St. Ignatius, Quigley South, Mendel, and St. Leo. Another highlight of the year for this club is the junior forensics tournament, to be held later in the year. This club has high hopes toward future successes in the Catholic League.

TALENT SHOW

The Talent Show effort which has been unactive for a year, sprung back to life early this April. Usually the Talent Show is a product of the efforts of the Forensics and Drama Clubs; however, this time a call went to all students who were interested to come to the practice where they might join if they wished. Through this show the faculty of this school hopes to bring out the talent that usually goes unnoticed. They expected a big turn out and they got it; but, however, during the course of the preparations, many participants dropped out of the show. Even though there was a small group taking part in the show, it was quite a success. From this good background future talent spectaculars are absolutely foreseen.

Turpentine, cut glass, dirty hands, linoleum blocks, paint brushes, canvas, a few laughs are a few of the ingredients which make up our palette club. Even though at times it seems hopeless to expect anything when these things are mixed, a work of art will emerge now and then much to the surprise of the onlooker. But it is not a surprise to the members of the palette club nor to their teacher, Brother Chapman. In fact, Brother says that we haven't begun to dig into the depths of talent which many students display.

Among the media the club has explored this year are conte drawing, tempera water color, oil, mosaics, linoleum and found object printing. Since most of the members are underclassmen, we are looking forward to next year's artifacys from experienced artists.

LIBRARY CLUB

Bob Golden, Joe Orseno and Nickie Puppo manage many of the affairs in the library.

Since its founding early in the history of the school, the Library Club has progressed from an infant state to a working, active club of about thirty members. Moderated by Brother Pilon, this club staffs the library and sees that it is kept in perfect running order. He is assisted in this work by Mr. McCarthy. The club also tries to promote an interest in good books among the students, especially among the librarians. In addition to all of these activities the members of the club belong to C.A.S.L.I., the Catholic Association of Student Librarians of Illinois, which meets several times a year. All in all, this club seems to be a necessary part of Rice's atmosphere.

The club engages in activities such as soirees, movies, lectures, outside reading, and cultural excursions to local French establishments. The club is moderated by Brother Wolf, F.S.C.H., who speaks French quite fluently. The officers are: president, smilin' Ed Domanskis; vice-president, Cyril Landise; and secretaries, Frank Modelski and big Dick Kehoe.

The officers discuss future activities of the French Club.

CHESS CLUB

Mr. Lempkowski watches over the chess match played by V. Misiulis, vice-president, and D. Derby, president.

The Chess Club has met in Room 201 since Mr. Lempkowski became moderator last year. Meetings are every Friday and last till about 5. They generally consist of pairing off and playing practice games, rather than a formal meeting.

The seven best players as chosen by Mr. Lempkowski form the team which engages in interscholastic competition. In two years, the team has beaten St. Ignatius and Blue Island and has lost to Blue Island and Mendel. One tie against St. Ignatius was recorded, giving the team a .500 record. Habitual team members are A. Slanskis, V. Misiulis, D. Derby, W. Markel, C. Patzelt and Baker.

The Photography Club, one of the oldest in the school, made great progress in the past year. New members have been taught the fundamentals of the art and science of photography, everything from the uses and operation of the press camera to the details of developing film and prints. Older members gained added proficiency in taking pictures. Moderated by Brother Kelleher, the club has stimulated the interest and skills of its members, while providing valuable aid for both the Standard and Crusader. Members have "shot" nearly every major school event.

Standard members discuss their new layout.

Under its new moderator, Br. Patrick D. McCormack, and its editor-in-chief, Ron Fishman, this year's STANDARD went though a major change. At midyear, its format was switched from the style of a newspaper to that of a magazine, making it more attractive and easier for the staff to work with.

Two new features were added this year—"Catholic Action Communique" and "College Corner." The best of past year's features were kept and improved on: the urbane and sophisticated "Jazz and the Arts," "Inquiring Reporter," the controversial "Meet the Faculty," the Sports Editor's (Bill Ragen's) column, "Speaking of Sports," the ever-popular and ridiculous "Knox and Kix," and the idealistic, intellectual "Astounding but True." In addition, the policies were formed of featuring one school activity and of printing several editorials, for each issue.

The main goals of this year's staff were to keep the students informed of everything going on in the school and to improve the general appearance of the paper. They attempted these, for the most part, by producing larger issues; by using all the space well; and by achieving variety with color, different-sized columns and headlines, and varied arrangements of articles. The many compliments received from both faculty and students indicates that these goals were reached.

YEARBOOK

Do you see that?

Br. Chapman, Norm O'Meara, and Bob Golden look with surprise at the finished copy of the dedication.

The 1963 CRUSADER staff has worked hard to put out one of the best yearbooks ever published. Led by the editor, Norman Tyley "dustpan" O'Meara, the staff blazed a trail to immortality. Second to "dustpan" was Go-Go Golden, who resorted to working Brother Pilon's mortuary when the **Standard** children invaded the holy temple, the pub room. Every day at one o'clock, the pub room was a hub of activity ranging from the crisis of Mr. Organization, the "wild" Jim Weimar, to the shouts of John "King Kong" Klabacha. The activities section was a gem due to the activity of Barry "hot rod" Lake, who is as quick? as his car. "Math" Bob Mustari ably completed the underclass and then, to the surprise of the entire yearbook staff, announced his plans to be a missionary to Red China. Our plight in the pub room was lessened by some entertainment; namely the goalie work of Dennis "goose" Gaynor and the great slap shot of Vince "toes" Meade. But there is always the proverbial black sheep. After completely messing up the dedication, Bobby "skinny" Fiscella proceeded to bankrupt the financial section of the CRUSADER. We still don't know how much he made from the deal. Bill "fats" Palluck, Jack of all trades, finally gained recognition when he hid the pinochle cards at lunch time. Tom "flash" Adlhoch takes advantage of the pub room even though he doesn't do anything beneficial for the CRUSADER.

TRACK

Rice men Costello and McCarthy participate in a meet at Hanson Park.

This year the track team was moderated by Br. Russo. He was aided in this task by Mr. Cranley, who coached the sprinters, by Mr. Kellogg, who coached the hurdles and pole vaulters, by Mr. Bergman, who coached the distance men, by Br. Knowles, who coached shot putters and high jumpers, and by Br. Doherty, who coached the Freshman team.

The season opened at the Daily News Relays where the four man team of Fee, O'Conner, Fry, and Cranley ran the second fastest time in the history of the 27 year old meet only to be defeated by the St. Ignatius team, who also broke the record.

Early in January the team could be seen running in the corridors goaded on by Mr. Knowles, Br. Russo, Mr. Cranley, and Mr. Bergman. Only those who were nearly run down can appreciate the motivation of this year's team.

The 1963 Crusader baseball team has high hopes for another great season. The coaches Mr. Sedlacek and Br. Barry have the good fortune to, have most of the '62 team returning. Much help is expected from seniors D. Ludden, R. Griggs, R. Craven, R. Ceca, S. Mulligan, L. Pervan, M. Bersheid and A. Weber. These seniors from the nucleus of the team, leaving very few positions to be filled. The team hopes to better its .545 won-lost average compiled in the '62 season. The Crusaders were 5-4 in pre-season competition and finished third in the South Section with a 7-6 record.

1963 Crusader Golf Team

Although losing the majority of the senior golf team through graduation, this year's team shows hope with the return of senior Rich Hosack and 1962 medalist winner Steve Graham. Other standouts from last year's junior team are Greg Newman, Jerry Polek, Ray Bartz, and James Kehoe, all of whom should prove to be great assets to the team. In the South Section matches last spring the juniors averaged a very respectable 84.75 to finish in second place. This year's junior team shows fine promise in sophomores Jerry Lawrence and Barry Dunkle, and in freshman standout Rick TenBroek. Moderated by Br. A. D. Devane, Brother Rice has high hopes for another fine golf team.

Tennis has been a favorite sport at Br. Rice since the school's establishment. The courts are always being used in warm weather. Of the many boys who use the courts, the better players use their talents for the tennis team. The team is looking forward to an exceptionally good season. In the past the team has been very successful. The senior team is led by Terry Garvey and John Kromer, both playing singles and bu Bill Heitner and Jim Arzbaecher, playing doubles. Other members of the senior squad are: Dennis Gaynor ("Wrists"), Norman Tyley O'Meara, "Legs" Rich Kehoe, Steve Graham, Joe Quatrochi, Bill Sarther, and Dave Jordan. The junior squad of Dan Collins and Dennis May in singles, and Tim Weyer and Bill Markel in doubles. With this fine collection of talent, the Br. Rice team should easily win the South Section title.

The 1963 Crusader football team, although winning two of seven games, had a much better season than the record would indicate. Of the five losses there were only two in which the team was down going into the fourth quarter. In all games fine performances were turned in by co-captains Mike Shaughnessy, Bill Riche, and Tom Omiecinski. Again this season Coach Johnston turned out an excellent forward wall. The backfield was sparked by fine play from Tom Omiecinski, Don Cranley, and Bern Radochonski. Quarterback Mike Concannon, alhtough hampered by inexperience, turned in a creditable job. Although Coach Adduci is leaving, the new coach will have much talent to form the 1963 season.

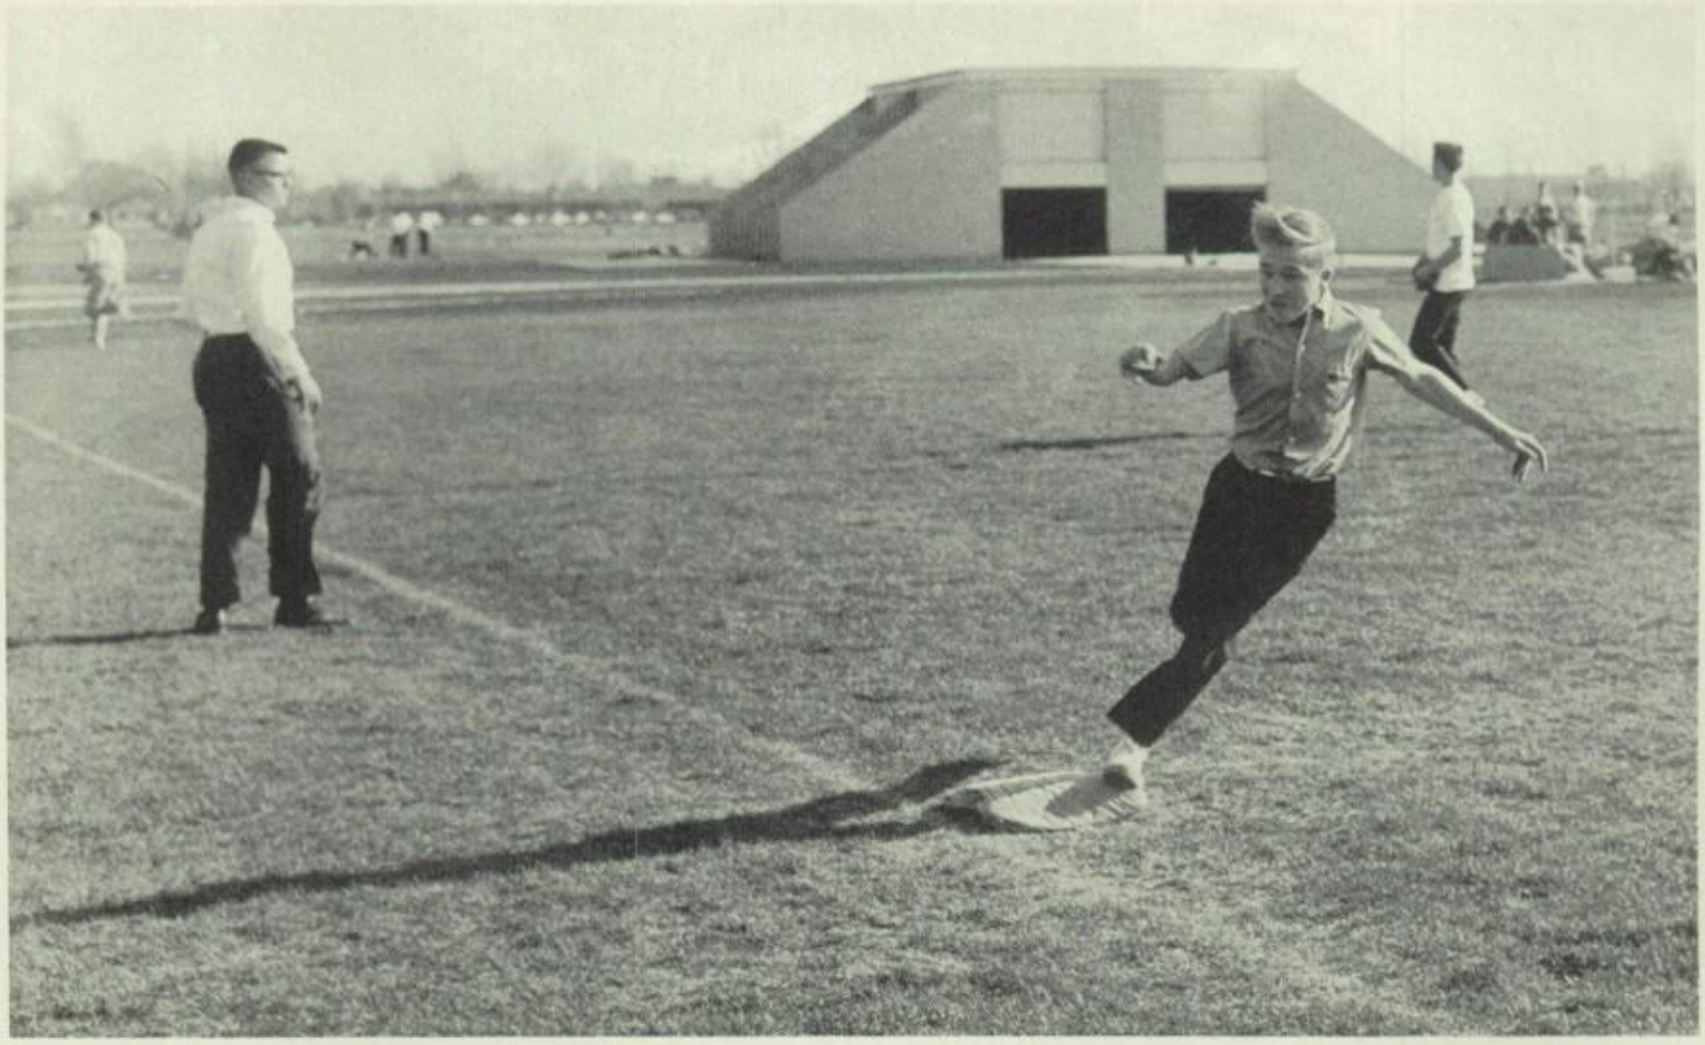
INTRAMURALS

This year's intramural hockey program, conducted by Br. Courtney, was a great success among the freshmen and sophomores. With each team playing four games, it was necessary for the games to be played both on weekdays and on weekends. The championship game of the payoffs was filled with much enthusiasm although it was rather cold out there. The winning team was awarded with fine hockey patches. Refereeing the games with Brother Courtney were other students who soon learned that officiating is no easy job. Congratulations again to Brother Courtney for his fine efforts.

INTRAMURALS



Intramural baseball was introduced through the efforts of Brother Kelleher this past year. Teams were organized and schedules drawn up to include freshmen and sophomores. Although many of the games produce high scores, the championship playoffs produced some great thrills. This year the league will be opened to all freshmen, sophomores, some juniors and some seniors. Congratulations to Brother Kelleher on his fine program.

INTRAMURALS

The intramural bowling league for the '62-63 season had another very successful season. This activity, under the guidance of Brother Lee, Brother Uicker, and Brother Leavey, is indeed one of the most popular activities in the school. This is attested by the fact that more than 125 students have participated in this year's junior league. The keen competition and the encouraging of each individual to better himself by concentration, and practice adds greatly to the activity's popularity. At the end of the season a banquet is held for these young competitors at one of Chicago's leading restaurants, and each individual from the top teams receives a letter or trophy honoring his achievement.

Akers, Kaleta, Meyer, and Moore get off to a fast start during practice.

This year's Crusader Swimming Team is well-supplied with swimming talent from all four years. The seniors, led by co-captains Paul Akers and Jim Kaleta, showed a fine third place in the Catholic league's swimming meet. With capable coaching by Brother Lindeman, the team also did well in numerous other meets. Freshmen, sophomores, and juniors will certainly provide Brother Rice with a fine swimming team with the coming year.

Co-captains Jim Kaleta and Paul Akers take a rest from their work.

Heavies

The Catholic Basketball League saw Brother Rice Crusaders produce the best varsity team in the history of the school. The Crusaders not only had their best overall season record of sixteen wins and seven losses, but more important, the squad gave Brother Rice its first major athletic trophy—the DePaul tournament trophy. The preseason record was an impressive ten wins and three losses. In the South Section competition, four losses were inflicted upon the Crusaders by the aggregate sum of only twenty-three points. ---A fine league record of six wins and four losses shows the fine caliber of the team.

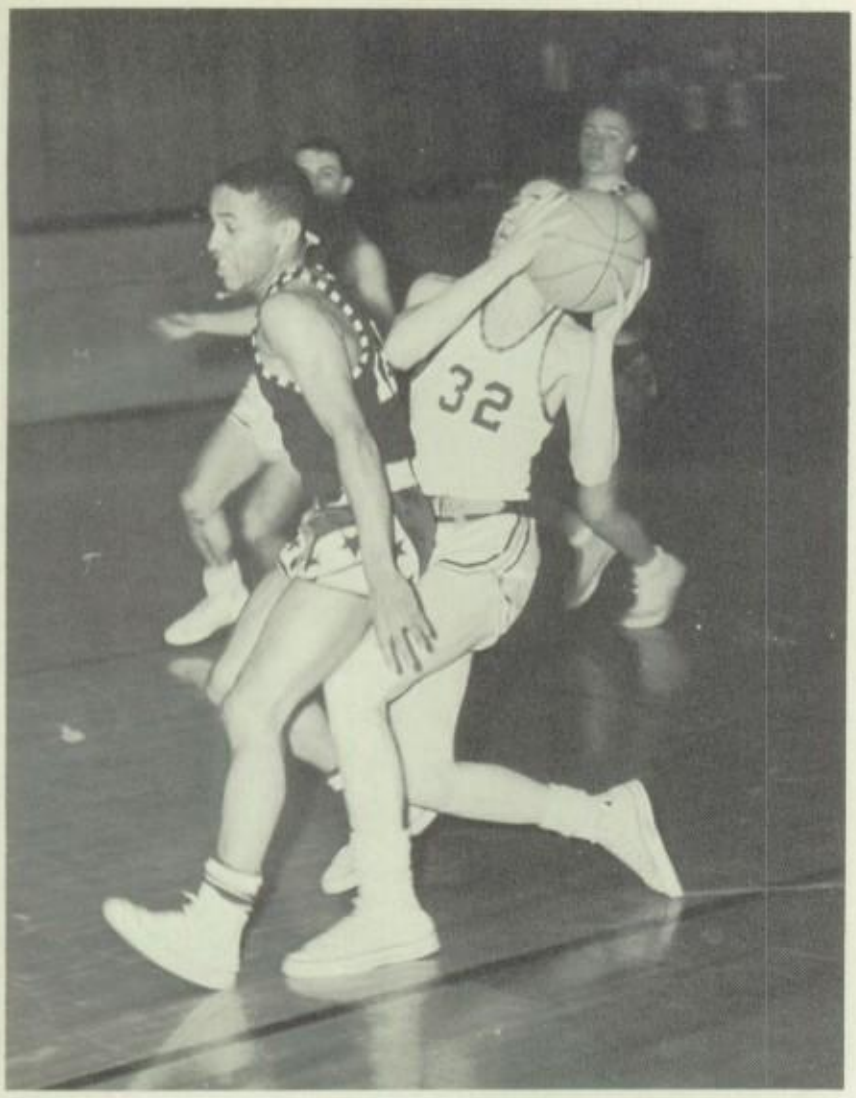
LIGHTS

The 1963 Crusader lightweights had a fine season, finishing 6-4 in league competition and barely missing the playoffs. Although the team lost four starters from last year squad, the team was bolstered by the fine work of several first year men. Juniors Jim Booth, Ray Bartz, Terry Cozzie, and Chet Simmons turned in creditable performances. Dan Coyne, as last year, scored many of the Crusaders' much needed points. Along with Booth and Simmons, senior Frank Perri provided the board strength. Mike Stokes and Mark Berscheid provided the nucleus of the bench. Congratulations to the members of the team and to their coach, Mr. Kellogg.



Dan Coyne is fouled on a layup attempt.
